

Art Challenge - Week 12

Giacometti Tin Foil Sculpture

This is a fun activity using an everyday household item – tin foil!

Giacometti was an Italian artist, he is well known for his sculptures of people in his unique style. The people are very tall with long limbs and look almost other-worldly.

Twist, scrunch, bend and loop tin foil to create your own sculpture. You could make a person or even an animal, whatever your imagination inspires you to create!
