

My Future

Term 3 is usually a time where we focus on careers sessions. We explore and discuss different options available to pupils when they leave school. The activity sheets **'My Future Pages 1 & 2'** focus on some options after school.

It is good to talk about the future and any feelings or questions we may have.

There is a space for you to record options which you would like to know more about.

Horticulture

I have continued with two of our summer Horticulture projects during lockdown. I sowed garden peas and Sunflower seeds for each of you just as we would have done in school. You can see they photos of how they are doing now...
