

Learning Outcome 2

9. How do you think your teachers or colleagues would describe you?

Don't be vague. For example, Jen called me 'very hardworking' in my last review.

This question is about what you like to do in your spare time. Think of good examples as 'sitting off with my mates' could make you sound de-motivated or even lazy.

10. Outside work/study what are some of the things you like to do?

Don't choose just anything to talk about. Think of examples that display some of your good qualities. For example, attendance of a regular club shows a commitment, and group activities show your ability to work in a team.
