

## Paper plate maze STEM activity

### What you need:

- Paper plate or cardboard box
- Glue/ sellotape
- Scissors
- Marbles or alternative small round objects
- Household supplies e.g. straws, cardboard

### Instructions:

1. Provide your child with any materials that you have found to use.
2. On the paper plate get them to draw out the maze they wish to build using a pen/pencil.
3. Using selected materials, use glue or sellotape to stick materials along where you have drawn out your maze, ensuring each item is stuck securely.
4. Once dried, using a marble, test out your maze, trying to get it from one side to the other! 😊
